Title: Western Actuarial Students Win International Research Awards

Posted by Jennifer Dungavell on September 26, 2013

Matt Bartley and Milos Miljanovic, Masters students of Dr. Xiaoming Liu were winners of the 2013 ARC Presentation Prizes the 48TH Actuarial Research Conference.

This year's first-class program was hosted by Temple University in Philadelphia and attracted researchers from around the world. We're proud of our students and congratulate them on their accomplishment at this international event.
